BANKER QUOTES

Binary Commissions Profits from Licenses sales of the Network

When a license is sold, 50% of the cost will be converted into a volume of points for the Binary system.

This points will be accumulated and use to calculate the commission for the Binary bonus.

At the end of each day, the Binary system will calculate **20%** of the volume of the minor team, which is determined by the team with fewer points. For example, if the left side of the Binary team has a total of **225 points**, the commission for the day will be **US$45 (225 x 20% = 45)**

Left Team = 225 Pts

Right Team = 825 Pts

TOP POSITION
Qualified two referrals in each side
